## Enesco Discovers a New Planet

posted in: [Enesco](#), [Planet Random](#)

The giftware universe now has a new planet.

Planet Random™, the latest launch from Enesco, LLC, can best be described as an other-worldly departure from the norm. Planet Random collections include:

Billy The Artist™, a Greenwich Village-based artist who brings his unique "Urban Primitive Pop" Art to products. Billy has designed watches for Swatch, motorcycles for Ducati, guitars for Gibson – and now brings his signature style to Enesco.

- Kimmidoll®, a family of contemporary doll characters, that is a modern, elegant version of the traditional "kokeshi" dolls, exchanged throughout Japan many centuries ago. Each doll is beautifully designed to represent life's true values.
- Ukido Ninja Warriors®, an exciting collection of unique characters that are inspired by traditional Japanese warriors. With powerful messages to live by, the characters represent admirable quality exhibited by warriors who do good for the world.
- Psyclops®, licensed from the Jim Henson Company, a pop culture lifestyle collection that features funny and contemporary one-eyed characters who embrace the world of music, dance, technology and art.
- TypeFaces™, a herd of humorous, expressive animals made from repurposed materials, including recycled paper and plastic.

You can meet the inhabitants of Planet Random at the Atlanta International Gift & Home Furnishings Market, AmericasMart Atlanta, Building 2, Suite 1616 from July 10-18.
